 - **Deposit steps:** Login → Payments → Choose UPI/Paytm → Complete.
 - **Withdraw steps:** Request withdrawal → Complete KYC → Bank/UPI transfer.
 - **Common issues:** KYC mismatch, wrong UPI, withdrawal limits — inhe pehle padho.
-

5) Bonus & Promo Code samajhna (examples ke saath)

- **Offer:** 100% bonus up to ₹10,000 with 5× wagering on bonus.
- **Example:** Deposit ₹2,000 → Bonus ₹2,000. Wagering requirement = $5 \times ₹2,000 = ₹10,000$ (matlab bonus ko withdraw karne se pehle ₹10,000 worth of qualifying bets lagane honge).
- **Check:** Minimum odds allowed? (e.g., min 1.40), expiry, allowed markets.

- **Rule:** Bonus idea achha hai par terms padho — bahut saare log terms miss kar dete hain.
-

6) Odds kaise padhte hain (simple)

- **Decimal odds** (common): Odds 2.50 → implied probability = $1 / 2.50 = 0.40 = 40\%$.
- **Fractional** (UK): 3/1 ka matlab 4.00 decimal (3+1).
- **Payout example:** Stake ₹100 at 2.50 → Return = $100 \times 2.50 = \text{₹}250$ (profit ₹150).

Tip: Hamisha implied probability ko apne estimate se compare karo — agar aapka estimate ek team ki chance 50% ho lekin market 40% dikha raha ho, value mil sakti hai.

7) Bankroll Management — Rules jo follow karo

1. **Allocate fixed bankroll** (example: ₹10,000) — isi ko use karo, personal money na mix karo.
 2. **Risk per bet:** 1% se 2% per stake recommended. Example: bankroll ₹10,000 → 1% = ₹100 per bet.
 3. **Flat staking** for beginners — same amount har bet.
 4. **Avoid chasing losses** — agar 3 loss streak hui to 24–48 hours break lo.
 5. **Record everything** — bets, stake, odds, result, notes.
-

8) Research & Match Analysis — Practical step-by-step

1. **Form check:** Last 5 matches (win/draw/loss).

2. **Head-to-head:** Kisi dono teams ka record kaisa hai.
3. **Injuries / Lineups:** Key players unavailable?
4. **Pitch / Weather:** Cricket me pitch/climate badi role play karta hai.
5. **Market movement:** Odds agar bahut shift kar rahe to reason samjho.
6. **Value hunt:** Agar aapka model ya logic market se alag result batata hai, tab value consider karo.

Simple model: 0-5 minutes research + 5 key stats = beginner ke liye kaafi hota hai.

9) Betting Strategies (safe & realistic)

- **Flat bet** (beginner friendly) — same stake har bet.
 - **Percentage staking** — each bet bankroll ka fixed % (1%).
 - **Avoid Martingale (doubling)** — bahut riskful.
 - **Value betting** — small size pe consistent, jab actual probability > implied.
 - **Hedging & Cashout** — kab use kare: jab position safe karna ho par cashout fees dekho.
-

10) Live / In-play tips

- **Start small:** Live odds fast change karte hain — stake kam rakho.
- **Watch momentum:** Ek team ke strong phase me market react karta hai.
- **Latency awareness:** Mobile vs desktop latency differ karta hai — fast decisions me effect aata hai.

4. **Gambling helplines** — agar problem lagti ho to local helpline contact.
5. **Never use borrowed money.**

 - **Overconfidence after small wins** → stick to plan.
 - **No bankroll plan** → set one and stick.
 - **Ignoring withdrawal rules** → kuch sites min withdrawal high rakhte hain.
 - **Chasing high odds for quick wins** → high variance = mehenga.
-
